

Technical data sheet

Benefits:

- More comfortable buildings and houses
- Adds sound insulation to impact noises
- Quick and easy to install
- Light and flexible
- Reduced thickness
- No special tools, equipment and clothing required

Precautions to take:

Since the product may contain some residue of flammable gas, it must be stored in a well-ventilated place, and avoid placing it within the reach of the flame.

Acoustic Insulation

Refª.	Lenght x Width (± 2,5%)	Area (± 2%)	Ø (± 5%)
F2LDPE.160.250	250m x 1,60m	400m ²	± 100cm
F2LDPE.120.25	25m x 1,20m	30m ²	± 23cm

Technical Data

Thickness EN 823	> 2mm (± 10%)
Lenght EN 822	1,60m or 1,20m (± 2,5%)
Width EN 822	250m or 25m (± 2,5%)

Composition

Formed by a layer of low density polyethylene foam, laminated with a black LDPE film, with a flap of ± 10 cm.

Application Areas

- Floors / Flooring
- Construction / Rehabilitation of Buildings
- Modular Constructions - Wood, Light Steel
- Packaging (Thermal Boxes, Containers)
